Press Release

Harold Martin Returns to the Rock with his **New Martin M4** and will compete at the **IHRA Spring NATIONALS**

The EFI Wizard Creating Excitement in 2009

Harold Martin and team are excited to return to the famous Rockingham Dragway on April 24-26th with their exciting new 2010 Martin M4 to compete at the IHRA Spring Nationals. Martin, who is always looking to embrace challenges, continues the path of developing his high tech innovative M4 car and building on the progress from his recent debut at the Mardi Gras Nationals. The man known by fans and competitors as the "EFI Wizard" will be taking the next steps in his historic journey at the IHRA Spring Nationals.

The new Martin M4 is one very exciting new vehicle and racecar and is already a fan favorite. While the production car is in process, the race version of the Martin M4 clearly demonstrates the innovation, attention to detail, and many special features that were a part of the design process. Both the fans and racers have caused the new M4 car to be recognized as one of the most futuristic and dynamic looking Pro Modified cars on the planet. It has also drawn attention from leaders throughout Motorsports and the automotive community worldwide.

Harold Martin stated, "We are excited to continue to the refinement of our new M4 as we have worked extremely hard with testing and developing the configuration for the next event. The IHRA Spring Nationals event will be the M4's 2nd race event and we are pumped and ready to compete." Martin has shared great success at "The Rock" in the past and looks forward to a good race weekend. With the combination of a lightning-fast racing surface and many tough Pro Modified IHRA competitors, teams will need to be at their very best to contend for the win. The "EFI Wizard" is looking forward to a strong showing with the M4 car, realizing some round Wins and perhaps its first victory.

"I truly have to give Steve Earwood and his entire team at Rockingham credit for the outstanding job they consistently perform. Steve has been an ambassador for Motorsports and that is reflected in the fans that come out to his track. We have a huge IHRA fan following at "The Rock" and will look forward to helping the IHRA team put on a memorable "world class" show for the fans."
